ESGO 2015 Scientific Programme*
*As of October 11, 2015

Saturday, October 24, 2015

09:30 - 10:30 Apollon
Best Oral Presentation

Coordinators:
Andreas du Bois (Germany)
Eric LeBlanc (France)

09:00 - 17:45 Calliope
Patient Seminar

11:00 - 12:30 Apollon
Parallel:
Clinical Trials since ESGO 2013

Coordinators:
Ignace Vergote (Belgium)
Isabelle Ray-Coquard (France)

- Clinical trials in endometrial cancer: list of ongoing and future clinical trials in EU and unanswered questions
  Mansoor Raza Mirza (Denmark)
- Clinical trials for cervix cancer: list of ongoing and future clinical trials in EU and unanswered questions
  Gemma Kenter (The Netherlands)
- Clinical trial for ovarian carcinoma: list of ongoing and future clinical trials in EU and unanswered questions
  Ignace Vergote (Belgium)
- Clinical trial for rare tumours: list of ongoing and future clinical trials in EU and unanswered questions
  Isabelle Ray-Coquard (France)

11:00 - 12:30 Athéna
Parallel:
Rare Peritoneal Tumours

Coordinators:
Olivier Glehen (France)
Sara O'Dwyer (United Kingdom)

- Organisation of health care providers for the treatment of rare peritoneal malignancies: The French way (RENAPE)
  Olivier Glehen (France)
- Current management of appendiceal neoplasia and Pseudomyxomes Peritonei
  Sara O'Dwyer (United Kingdom)
- Peritoneal mesothelioma: who benefits from radical surgery?
  Marcello Deraco (Italy)
- The role of hyperthermic intraperitoneal chemotherapy in the palliative treatment of peritoneal malignancies
  Kurt Van der Speeten (Belgium)
11:00 - 12:30  Hermes

Task Force: INTEGRATE (ENITEC, ENTRIGO, EUTROC)

Coordinators:
Hani Gabra (United Kingdom)
Helga B. Salvesen (Norway)

- Introduction to INTEGRATE
  Helga Salvesen (Norway)
  Hani Gabra (United Kingdom)
- ENITEC MoMaTEC2: A prospective phase IV biomaker study for individualizing endometrial cancer surgery
  Helga Salvesen (Norway)
- EUTROC P53ARRO: A randomised clinical/translational trial of p53 targeting in recurrent platinum sensitive ovarian cancer
  John Green (United Kingdom)
- ENITEC L1CAM 1 validation study in Endometrial Cancer
  Johanna Pijnenborg (The Netherlands)
- EUTROC/ENITEC PROTECT and EUTROC DICE: Randomised clinical/translational trials of dual TORC and PI3K inhibition in recurrent endometrial and ovarian cancer
  Hani Gabra (United Kingdom)

11:00 - 12:30  Thalia/Clio

National Society: SFOG 1: Sentinel Node

Coordinators:
Patrice Mathevet (France)
Fabrice Lécuru (France)

- New techniques for sentinel node identification: fluorophore, magnetic marker... Detection rate and false negative cases.
  Fabrice Lécuru (France)
- Cervical cancer and SN technique: SN alone or in association with pelvic lymph-node dissection?
  Patrice Mathevet (France)
- Vulvar cancer and SN technique: What are the false negative cases, what are the valid indications for the SN technique?
  Ate GJ van der Zee (The Netherlands)
- Endometrial cancer and SN technique: what are the indications and the principal technical aspects?
  Nadeem R. Abu-Rustum (USA)

13:00 - 14:30  Athéna

Industry Supported Session 1
14:30 - 15:30  Apollon

State of the Art:
Cervical Cancer

Coordinators:
David Cibula (Czech Republic)
Christine Haie-Meder (France)

- Update on fertility sparing treatment
  Nadeem R. Abu-Rustum (USA)
- Rationale and evidence for tailored approach to early stage disease
  David Cibula (Czech Republic)
- Advanced stage with emphasis on management of patients with positive paraaortic nodes
  Christine Haie-Meder (France)

14:30 - 15:30  Athéna

Tumour Board:
Vulva

Coordinators:
Ate GJ van der Zee (The Netherlands)
Lukas Rob (Czech Republic)

- EARLY STAGE VULVAR CANCER: SENTINEL NODE YES OR NO
  Ate GJ van der Zee (The Netherlands)
- ADVANCED VULVAR CANCER
  Lukas Rob (Czech Republic)

14:30 - 15:30  Hermes

Affiliated Society:
Joint ESMO – ESGO Session: Multidisciplinary management of gynaecological malignancies; a case-based interactive discussion

Coordinators:
Jonathan Ledermann (United Kingdom)
Nicoletta Colombo (Italy)

- Importance of multidisciplinary management of gynaecological cancers
  Jonathan Ledermann (United Kingdom)
- Case 1: Multidisciplinary management of advanced ovarian cancer
  o Surgery or neoadjuvant chemotherapy
    Nicoletta Colombo (Italy)
  o Current choices for first line therapy
    Jonathan Ledermann (United Kingdom)
  o Managing early relapse- experimental therapeutics
    Cristiana Sessa (Switzerland)
  o Discussion
- Case 2: Multidisciplinary management of Cervical Cancer
  o Surgical management of early disease
    Nicoletta Colombo (Italy)
  o Current options for relapsed cervical cancer
    Jonathan Ledermann (United Kingdom)
  o Horizon scanning-emerging strategies for recurrent disease
    Cristiana Sessa (Switzerland)
  o Discussion
- Closure/summary
  Nicoletta Colombo (Italy)
### Oral Presentations 1
#### Endometrial Cancer

**Chairs:**
- Carien Creutzberg (The Netherlands)
- Émile Darai (France)

### 16:00 - 17:00
#### Apollon

**State of the Art:**
**Ovarian Cancer**

**Coordinators:**
- Nicoletta Colombo (Italy)
- Eric Pujade-Lauraine (France)
- Émile Darai (France)

- Surgical treatment of primary and recurrent ovarian cancer
  - Émile Darai (France)
- Systemic therapy: from chemotherapy to targeted therapy in front line and at recurrence
  - Nicoletta Colombo (Italy)
- Surgical and systemic treatment of recurrences
  - Andreas du Bois (Germany)
- How to manage BRCA mutated patients?
  - Eric Pujade-Lauraine (France)

### 16:00 - 17:00
#### Athéna

**Tumour Board:**
**Fertility Sparing**

**Coordinators:**
- Dimitrios Haidopoulos (Greece)
- Michael Halaska (Czech Republic)

- A case of endometrial cancer
  - Alexander Rodolakis (Greece)
- A case of cervical cancer
  - Michael Halaska (Czech Republic)
- A case of ovarian cancer
  - Dimitrios Haidopoulos (Greece)

### 16:00 - 17:00
#### Hermes

**Parallel:**
**Perioperative Management**

**Coordinators:**
- Stephanie Suria (France)
- Sean Dowdy (USA)

- How anesthesia can improve postoperative recovery
  - Stephanie Suria (France)
- The role of nutrition in perioperative recovery
  - Federico Bozzetti (Italy)
- Putting it all together: The impact of a comprehensive, standardised enhanced recovery programme
  - Sean Dowdy (USA)
16:00 - 17:00  Thalia/Clio

Affiliated Society:
ASIAN SOCIETY OF GYNECOLOGIC ONCOLOGY (ASGO): Update in the management of gynaecologic cancers

Coordinators:
Soon Beom Kang (Korea)
Toshiharu Kamura (Japan)

- Laparoscopic radical hysterectomy in early cervical cancer
  Joo-Hyun Nam (Korea)
- Surgery or CCRT for stage IIB cervical cancer
  Miko Mikami (Japan)
- Ovarian Cancer Screening
  Sarikapan Wilailak (Thailand)

17:00 - 18:30  Apollon

Industry Supported Session 3
### Sunday, October 25, 2015

#### 07:30 - 08:30  Apollon

**Video:**

**Ovarian Cancer**

Coordinators:
Christian Marth (Austria)
Eric Leblanc (France)

- Peritoneal stripping in ovarian cancer
  Philipp Harter (Germany)
- Lymph node dissection
  Christian Marth (Austria)
- Laparoscopic evaluation
  Anna Fagotti (Italy)
- The Hudson procedure
  Gwenaël Ferron (France)

#### 07:30 - 08:30  Athéna

**Parallel:**

**Uterine Transplantation: A (potential) New Improvement in Fertility Sparing Surgery in Gynaecologic Oncology**

Coordinators:
Yves Aubard (France)
Alexandros Rodolakis (Greece)

- First results of uterine transportation in human
  Pernilla Dahm Kähler (Sweden)
- Oncologic risk in immuno-suppressed patients for transplantation
  Josep M. Grinyó (Spain)
- Potential interest and place of uterine transplantation in gynaecologic oncology
  Yves Aubard (France)

#### 07:30 - 08:30  Thalia/Clio

**Sunrise:**

**Early Drug Development**

Coordinators:
John A. Green (United Kingdom)
Alexandra Leary (France)

- Targeting tumour suppressor genes - the example of p53
  John A. Green (United Kingdom)
- Targeting DNA repair
  Alexandra Leary (France)
- Targeting the PI3K/AKT pathway
  Hani Gabra (United Kingdom)
08:30 - 09:30  Apollon

Parallel:
**New Targeted Treatments in Gynaecological Cancers**

Coordinators:
Cristiana Sessa (Switzerland)
Antonio Casado (Spain)

- Introduction
  Antonio Casado (Spain)
- RAS RAF MEK ERK pathway
  Cristiana Sessa (Switzerland)
- New antiangiogenic and vascular disrupting agents and their combinations
  Antonio Casado (Spain)
- Targeting HSP-90 in gynecological cancer
  Nicole Concin (Austria)
- Concluding remarks
  Cristiana Sessa (Switzerland)

08:30 - 09:30  Athéna

Parallel:
**Follow up on Gynaecological Malignancies - Best of Torino ESGO2014 SoA Conference**

Coordinators:
Paolo Zola (Italy)
Philippe Morice (France)

- Introduction Hot Topics in follow up
  Paolo Zola (Italy)
- Follow up on cervical cancer
  Tiziano Maggino (Italy)
- Follow up on ovarian cancer
  Nicholas Reed (United Kingdom)
- Follow up on endometrial cancer
  Paolo Zola (Italy)
- Future directions
  Paolo Zola (Italy)
  Philippe Morice (France)

08:30 - 09:30  Hermes

Best Poster Session 1

Chairs:
Alexandra Leary (France)
Rene Verheijen (The Netherlands)
Martin Widschwendter (United Kingdom)

08:30 - 09:30  Thalia/Clio

National Society:
SFOG 2 (Free communications in French)

Coordinators:
Sébastien Gouy (France)
Florence Letinier (France)
08:30 - 09:30 Calliope

Task Force:
ENGAGE: Involving patients as partners

Coordinators:
John Green (United Kingdom)
Isabel Mortara (Switzerland)

- Setting the Scene
  John Butler (United Kingdom)
- What is ENGAGE and Role of ESGO in patient outreach?
  John Green (United Kingdom)
- Cervical Cancer - the role of patient advocacy to bridge gaps
  Robert Music (United Kingdom)
- Collaboration with ENGAGE and Benefits of Patient involvement in clinical trials
  Christian Marth (Austria)
- Identifying guidelines and quality assurance projects with Patient Involvement and next steps
  Luis M. Chiva (Spain)

09:30 - 10:30 Apollon

Presidential Address

- Introduction:
  Lynette Denny (South Africa)
- Gynaecological oncology: a way to go
  Vesna Kesic (Serbia)

11:00 - 12:30 Apollon

Late Breaking News

Coordinators:
Nicoletta Colombo (Italy)
Ate GJ van der Zee (The Netherlands)

11:00 - 12:30 Athéna

Parallel:
Surgical management of Recurrent Gynaecological Tumours

Coordinators:
David Cibula (Czech Republic)
Jalid Sehouli (Germany)

- Palliative and non-palliative surgical interventions in relapsed ovarian cancer
  Jalid Sehouli (Germany)
- Update on pelvic exenteration in 2015
  David Cibula (Czech Republic)
- Reconstructive procedures after pelvic exenteration
  Luis M. Chiva (Spain)
- Surgical management of extrapelvic recurrences
  Neville Hacker (Australia)
11:00 - 12:30   Hermes

Affiliated Society:
IPOS-ESGO Symposium: PSYCHO-ONCOLOGICAL SUPPORT AS A JOINT EFFORT FOR CANCER PATIENTS

Coordinators:
Anja Mehnert (Germany)
Annette Hasenburg (Germany)

- Cooperation of ESGO and IPOS
  Vesna Kesic (Serbia) and Anja Mehnert (Germany)
- Psychological distress associated with breast and ovarian cancer risk genetic testing and medical management
  Anne Bredart (France)
- Cancer as a disease that involves all family members
  Snežana Mijalkovic (Serbia)
- Mental disorders in patients with gynaecological cancers
  Anja Mehnert (Germany)
- Survivorship: How can we support our patients?
  Annette Hasenburg (Germany)

11:00 - 12:30   Thalia/Clio

Oral Presentation 2
Ovarian Cancer

Chairs:
Christina Fotopoulou (United Kingdom)
Giovanni Aletti (Italy)

13:00 - 14:30   Athéna

Industry Supported Session 4

14:30 - 16:00   Apollon

State of the Art:
Endometrial cancer: New ESMO - ESGO - ESTRO Guidelines

Coordinators:
Nicoletta Colombo (Italy)
Carien Creutzberg (The Netherlands)
Cristiana Sessa (Switzerland)

- Introduction to the multidisciplinary consensus process
  Nicoletta Colombo (Italy)
- Prevention and screening
  Frederic Amant (Belgium)
- Surgery
  Christian Marth (Austria)
- Adjuvant treatment
  Remi Nout (The Netherlands)
- Advanced and recurrent disease
  Jonathan Ledermann (United Kingdom)
- Panel discussion
14:30 - 16:00  Athéna

**Parallel:**

**Oncogenetic**

Coordinators:
Elisabeth Åvall-Lundqvist (Sweden)
Charlie Gourley (United Kingdom)

- Molecular testing in ovarian cancer; how far should we go?
  Charlie Gourley (United Kingdom)
- Implementation of BRCA sequencing in an oncology clinic
  Susana Banerjee (United Kingdom)
- Risk communication in oncogenetics
  Jan Oosterwijk (The Netherlands)
- Psychosocial aspects of genetic testing
  Elisabeth Åvall-Lundqvist (Sweden)

14:30 - 16:00  Hermes

**National Society**

SPANISH SOCIETY OF GYNAECOLOGIC ONCOLOGY AND OBSTETRICS (SEGO)

Sentinel node - Spanish Guidelines (Oncoguías SEGO) and video-technique

Coordinators:
Jordi Ponce (Spain)
Maite Cusidó (Spain)

- Introducing the state of the art
  Ricardo Sainz de la Cuesta (Spain)
- Vulvar cancer: Can we avoid lymphadenectomy?
  Santiago Domingo (Spain)
- Cervical cancer: Only for frozen section study?
  Javier de Santiago (Spain)
- Endometrial cancer: In which cases is it indicated?
  Mikel Gorostidi (Spain)
- Breast cancer: In which cases can we do without?
  Elena Alvarez (Spain)
- Open discussion
  Moderation: Jordi Ponce (Spain)

14:30 - 16:00  Thalia/Clio

**Oral Presentations 3**

**Miscellaneous**

Chairs:
Usha Menon (United Kingdom)
Pedro Ramirez (USA)
16:30 - 17:30  Apollon

Parallel:
Management of intermediate risk of endometrial cancer

Coordinators:
Carien Creutzberg (The Netherlands)
Mansoor Raza Mirza (Denmark)

- Surgical staging and potential role of sentinel node biopsy
  Sean Dowdy (USA)
- Role of Radiation Therapy in intermediate risk group
  Carien Creutzberg (The Netherlands)
- Controversies in the management of intermediate risk endometrial cancer
  Mansoor Raza Mirza (Denmark)
- Clinical Applications of molecular and genetic predictive factors in Endometrial Cancer
  Michael Birrer (USA)

16:30 - 17:30  Athéna

National Society
ISRAELI SOCIETY OF GYNECOLOGIC ONCOLOGY (ISGO):
Hereditary Ovarian cancer: Screening options, surgical interventions and post-operative treatment

Coordinators:
Ami Fishman (Israel)
Jacob Korach (Israel)

- Overview of ovarian cancer in relation to BRCA mutation carriers
  Tally Levy (Israel)
- Screening recommendations: High-risk population only? General population?
  Ilan Bruchim (Israel)
- Is there place for PGD in mutation carriers?
  Uzi Beller (Israel)
- Should salpingectomy precede oophorectomy?
  Mario Beiner (Israel)
- Should hysterectomy be considered?
  Ofer Lavie (Israel)
- Post-operative HRT – pros & cons
  Ofer Gemer (Israel)
- Role of PARP inhibitors and future directions
  Ora Rosengarten (Israel)

16:30 - 17:30  Hermes

General Assembly of Members (ESGO members only)
16:30 - 17:30  Thalia/Clio

Affiliated Society
EUROPEAN ORGANISATION FOR RESEARCH AND TREATMENT OF CANCER (EORTC): Immunotherapy and cervix cancer

Coordinators:
Antonio Casado (Spain)
Nelleke Ottevanger (The Netherlands)

- Immunotherapy approaches in ovarian cancer
  Nelleke Ottevanger (The Netherlands)
- Overview on HPV trials and an update on recent advances on HPV research
  Gemma Kenter (The Netherlands)
- New lines of research in cervix cancer. The new ROG-EORTC GCG working party and the EORTC 1414 trial
  Fernanda Herrera (Switzerland)
- Complex vaccination strategies in cervical cancers
  Suzy Scholl (France)

17:30 - 19:00  Athéna

Industry Supported Session 5

17:30 - 18:30  Calliope

Glass with the Expert
Monday, October 26, 2015

07:30 - 08:30  Athéna

**Video session:**

**Cervical Cancer & Vulvar Cancer**

**Coordinators:**
Murat Gultekin (Turkey)
Rainer Kimmig (Germany)

- Radical Hysterectomy, Vaginectomy and Parametrectomy
  Murat Gultekin (Turkey)
- Single-port laparoscopy in cervical cancer and extraperitoneal para-aortic lymphadenectomy
  Sébastien Gouy (France)
- ICG-Fluorescence guided compartmental surgery in cervical cancer
  Rainer Kimmig (Germany)
- Robotic Surgery - what has it changed in cervical cancer surgery?
  Angelo Maggioni (Italy)

07:30 - 08:30  Hermes

**Sunrise:**

**Palliative Care**

**Coordinators:**
Johan Menten (Belgium)
Rene Verheijen (The Netherlands)

- Palliative treatments: Different surgical possibilities for gynecological cancer as palliative treatments
  Rene Verheijen (The Netherlands)
  Johan Menten (Belgium)
- Palliative care
  Johan Menten (Belgium)
- Dying process ~ terminal care: finally how can we recognize that a patient starts dying and what do we have to do?
  Johan Menten (Belgium)

07:30 - 08:30  Thalia/Clio

**Sunrise:**

**Mucinous Ovarian Cancer**

**Coordinators:**
Philippe Morice (France)
Jaime Prat (Spain)

- Pathologic classifications and relevant patterns in mucinous borderline and invasive ovarian tumours
  Jaime Prat (Spain)
- Specific requirement due to the subtype in the surgical management of mucinous ovarian tumours
  Philippe Morice (France)
- Chemotherapy and targeted therapies in mucinous ovarian cancers: current management and future strategies
  Alexandra Leary (France)
Sunrise: Uterine Sarcoma

Coordinators:
Frederic Amant (Belgium)
Patricia Pautier (France)

- Endometrial stromal sarcoma
  - Pathology
    Catherine Genestie (France)
  - Surgery
    Frederic Amant (Belgium)
  - Systemic treatment, including adjuvant
    Patricia Pautier (France)

- Uterine leiomyosarcoma
  - Pathology
    Catherine Genestie (France)
  - Surgery
    Frederic Amant (Belgium)
  - Systemic treatment, including adjuvant
    Patricia Pautier (France)

Apollon

Parallel:
Challenges in the Management of Cervical Cancer

Coordinators:
Denis Querleu (France)
Gillian Thomas (Canada)

- Is radical hysterectomy necessary in low volume disease?
  Pedro Ramirez (USA)

- Stage IB2 : radical hysterectomy or chemoradiation?
  Denis Querleu (France)

- Stage IB-III : How Can we Improve outcomes for advanced Cervical Cancer?
  Gillian Thomas (Canada)

Athéna

Task Force:
INCIP - Cancer and Infertility in Pregnancy

Coordinators:
Frederic Amant (Belgium)
Michael Halaska (Czech Republic)

- INCIP: who, why and what
  Frederic Amant (Belgium)

- Breast cancer in pregnancy
  Frederic Amant (Belgium)

- Gynaecological cancer in Pregnancy
  Michael Halaska (Czech Republic)

- The Obstetrical and Neonatal point of view
  Monica Fumagalli (Italy)
08:30 - 09:30  Hermes
State of the Art:
Breast Cancer

Coordinators:
Emmanuel Barranger (France)
Robert Mansel (United Kingdom)

- Management of the axilla in Europe after the Z-11 and AMAROS trials
  Robert Mansel (United Kingdom)
- Nipple skin sparing mastectomy: state of the art
  Tarik Ihrai (France)
- New techniques for sentinel node identification
  Thorsten Kühn (Germany)

08:30 - 09:30  Thalia/Clio
Oral Presentations 4
Cervical Cancer

Chairs:
Antonio Casado (Spain)
Luis Chiva (Spain)

08:30 - 09:30  Calliope
Affliated Society
EUROPEAN SOCIETY FOR RADIOTHERAPY & ONCOLOGY (ESTRO):
Advanced cervical cancer: towards a more personalised radiation treatment

Coordinators:
Christine HaieMeder (France)
Richard Pötter (Austria)

- Brachytherapy data: Which doses for which tumours?
  Jacob Lindegaard (Denmark)
- Dose adaptation for pelvic / para-aortic nodes
  Ina Jürgenliemk-Schulz (The Netherlands)
- Radiation Therapy and anti-HPV treatment
  Eric Deutsch (France)

09:30 - 10:30  Apollon
Keynote Lecture
Image Guided Surgery
Chair: Denis Querleu (France)
Jacque Marescaux (France)
11:00 - 12:30  Apollon

Parallel:
Personalised Medicine (P4)

Coordinators:
Martin Widschwendter (United Kingdom)
Helga B. Salvesen (Norway)

- Novel strategies for women’s cancer risk prediction
  Martin Widschwendter (United Kingdom)
- An update on current strategies for women’s cancer prevention
  Jack Cuzick (United Kingdom)
- Personalised treatment in women’s cancer
  Helga B. Salvesen (Norway)
- Personalised risk prediction and prevention – the role of social media networks
  Caroline Presho (United Kingdom)

11:00 - 12:30  Athéna

Parallel:
Surgical Trials (EBM)

Coordinators:
Philip Harter (Germany)
Marie Plante (Canada)

- Cervical and Vulvar Cancer
  Marie Plante (Canada)
- Endometrial Cancer
  Stefano Greggi (Italy)
- Primary Ovarian Cancer
  Sven Mahner (Germany)
- Recurrent Ovarian Cancer and HIPEC
  Philip Harter (Germany)

11:00 - 12:30  Hermes

ENYGO Session 1:
Young Investigators Session

Coordinators:
Rene Laky (Austria)
Elisabeth Chereau (France)
11:00 - 12:30  Thalia/Clio

Affiliated Society:
EUROPEAN SOCIETY OF PATHOLOGY (ESP) AND ESGO JOINT SESSION
Clinician Meets Pathologist on Gynaecological Tumours

Coordinators:
Maria-Rosaria Raspolini (Italy)
Vesna Kesic (Serbia)

- Adenocarcinoma of the cervix: Key histopathological criteria which tailor an optimal treatment
  Ermina Iljazović (Bosnia and Herzegovina)
- What is new in pathology and genetics of endometrial cancer
  Jaime Prat (Spain)
- New Developments in ovarian epithelial tumours
  Glenn McCluggage (United Kingdom)
- Discussion

11:00 - 12:30  Calliope

Oral Presentations 5
Miscellaneous

Chairs:
Lynette Denny (South Africa)
Neville Hacker (Australia)

13:30 - 14:30  Apollon

Debate:
Robot vs Laparoscopic

Coordinators:
Rainer Kimmig (Germany)
Eric Leblanc (France)

- Pro Robotic
  - Radical Hysterectomy
    Angelo Maggioni (Italy)
  - Lymphadenectomy
    Henrik Falconer (Sweden)
- Pro Laparoscopy
  - Radical Hysterectomy
    Christophe Pomel (France)
  - Lymphadenectomy
    Christhardt Köhler (Germany)
13:30 - 14:30  Athéna

**Task Force:**
**Fertility Preservation**

**Coordinators:**
Dominik Denschlag (Germany)
Frederic Amant (Belgium)

- Introduction: Fertility and Pregnancy challenged by Cancer – Accepting the challenge by ESGO Task Forces collaboration
  Frederic Amant (Belgium)
- Breast Cancer: Ovarian damage by systemic treatment and the role of protection by GnRH Analogues
  Dominik Denschlag (Germany)
- Endometrial Cancer: Clinical recommendation for conservative treatment in low risk disease
  Alexander Rodolakis (Greece)
- Ovarian Cancer: Ovarian management in young patients with BRCA-mutations
  Catherine Uzan (France)

13:30 - 14:30  Hermes

**Best Poster Session 2**

**Chairs:**
Antonio Casado (Spain)
Sean Dowdy (USA)
Nicholas Reed (United Kingdom)

13:30 - 14:30  Thalia/Clio

**Task Force:**
**ENGOT - New developments in ovarian cancer treatment: Report from ENGOT**

**Coordinators:**
Christian Marth (Austria)
Eric Pujade-Lauraine (France)

- What are the most promising drugs on the horizon for treating ovarian cancer patients
  Eric Pujade-Lauraine (France)
  What are ongoing ovarian cancer trials?
  Christian Marth (Austria)
- What are the most promising predicting tests in ovarian cancer?
  Heidi Fiegl (Austria)

13:30 - 14:30  Calliope

**National Society**
**NORDIC SOCIETY OF GYNAECOLOGIC ONCOLOGY (NSGO)**

**Coordinators:**
Elisabeth Åvall-Lundqvist (Sweden)
Mansoor Raza Mirza (Denmark)

- Role of anti-angiogenic therapy in gynecological malignancies
  Johanna Mäenpää (Finland)
- PARP inhibitors in ovarian cancer
  Elisabeth Åvall-Lundqvist (Sweden)
- Hormonal clinical applications of genomic research in endometrial cancer
  Helga B. Salvesen (Norway)
- Role of chemotherapy in endometrial cancer
  Mansoor Raza Mirza (Denmark)
- Discussion
15:00 - 16:00  Apollon
Parallel:
Selection of Ovarian Cancer Patients for Debulking Surgery

Coordinators:
Angelo Maggioni (Italy)
Denis Querleu (France)
- Any borders in Cytoreductive surgery? Which are?
  Christina Fotopoulou (United Kingdom)
- How to select the patients in an appropriated and dedicated surgical center?
  Giovanni Aletti (Italy)
- The future role of biological markers in the surgical treatment planning
  Michael Birrer (USA)

15:00 - 16:00  Athéna
Tumour Board:
Trophoblastic Disease

Coordinators:
Frederic Goffin (Belgium)
Michael Seckl (United Kingdom)
- GTD, and low risk GTN molar evacuation
  Frederic Goffin (Belgium)
- High risk GTN post term
  Michael Seckl (United Kingdom)
- False positive or negative hCG: should we care?
  François Golfier (France)

15:00 - 16:00  Hermes
ENYGO Session 2:
The value of Immunohistochemistry in Diagnostic Gynaecological Tumour Pathology

Coordinators:
Jaime Prat (Spain)
Michael Halaska (Czech Republic)
- Glenn McCluggage (United Kingdom)
- Emanuela D'Angelo (Spain)
- Maria Rosaria Raspollini (Italy)
- Jaime Prat (Spain)

15:00 - 16:00  Thalia/Clio
Parallel:
Immunotherapy

Coordinators:
Christian Marth (Austria)
Eric Pujade-Lauraine (France)
- General principles of tumour immunology
  Christian Marth (Austria)
- Therapeutic vaccines for cervical cancer
  Cornelis JM Melief (The Netherlands)
- Immunotherapy of ovarian cancer
  Eric Pujade-Lauraine (France)
15:00 - 16:00 Calliope

National Society: SFOG 3 - (Free communications in English)

Coordinators:
Philippe Morice (France)
Catherine Genestie (France)

16:00 - 17:00 Athéna

National Society

ARBEITSGEMEINSCHAFT GYNAKOLOGISHE ONKOLOGIE E.V. (AGO) AND NORTH-EASTERN SOCIETY FOR GYNECOLOGICAL ONCOLOGY (NOGGO) JOINT SESSION

CONTROVERSIES IN GYNECOLOGICAL ONCOLOGY

Chairs:
Tanja Fehm (Germany)
Jalid Sehouli (Germany)

- Cervical Cancer – Fertility Preservation
  - Radical Trachelektomy
    Ingo Runnebaum (Germany)
  - Neoadjuvant chemotherapy
    Frederic Amant (Belgium)
- Ovarian Cancer
  Neoadjuvant primary surgery in advanced ovarian cancer - Pro/Con
  Ignace Vergote (Belgium) / Jalid Sehouli (Germany)
- Endometrial Cancer
  Antihormonal therapy in advanced and relapsed endometrial cancer - Pro/Con
  Günter Emons (Germany) / Stefano Greggi (Italy)

16:00 - 17:00 Hermes

Task Force:

SURGERY IN GYNAECOLOGICAL ONCOLOGY (SURGEON)

Coordinators:
David Cibula (Czech Republic)
Denis Querleu (France)

- Education and training in surgery
  Luis Chiva (Spain)
- Multidisciplinary collaboration
  Nadeem R. Abu-Rustum (USA)
- Quality control assessment
  Denis Querleu (France)
- Standardisation in surgery
  David Cibula (Czech Republic)
16:00 - 17:00  Thalia/Clio

National Society
TURKISH SOCIETY OF GYNECOLOGIC ONCOLOGY: SURGICAL TECHNIQUES VIDEO SESSION

Moderators:
Sabit Sinan Ozalp (Turkey)
Kunter Yuce (Turkey)

- Splenectomy and distal pancreatectomy
  Ali Ayhan (Turkey)
- Hepatoduodenal ligament and celiac plexus exploration and tumor resection
  Haldun Guner, Anil Onan, Cagatay Taskiran (Turkey)
- Total omentectomy
  Gokhan Tulunay, Nurettin Boran (Turkey)
- Peritoneectomy
  Kunter Yuce, Nejat Özgül, Coskun Salman (Turkey)
- Rectosigmoid resection and anastomosis
  U. Fırat Ortac (Turkey)
- Pelvic exenteration
  Macit Arvas, Fuat Demirkiran, Tugan Bese (Turkey)
- Laparoscopic pelvic and paraaortic lymphadenectomy
  Aytekin Altintas, M. Ali Vardar (Turkey)
- Robotic pelvic and paraaortic lymphadenectomy
  M. Faruk Kose, M. Murat Naki (Turkey)
- Robotic extraperitoneal paraaortic lymphadenectomy
  Mufit C. Yenen, Murat Dede (Turkey)
- Robotic radical trachelectomy
  İlkkan Dunder, Mete Gungor (Turkey)
- Laparoscopic sigmoid interposition
  Ates Karateke (Turkey)
- Discussion

16:00 - 17:00  Calliope

Task Force:
PREVENTION AND DIAGNOSTICS - Screening of Cervical Cancer

Coordinators:
Vesna Kesic (Serbia)
Murat Gultekin (Turkey)

- Cervical Cancer Screening: a never-ending challenge
  Lynette Denny (South Africa)
- Cervical Cancer Screening Test
  - Is there still a place for cytology?
    Vesna Kesic (Serbia)
  - The role of HPV test in primary screening
    Murat Gultekin (Turkey)
- Integrating HPV screening and vaccination: Prevention for all women
  Claudia Robles (Spain)
Tuesday, October 27, 2015

07:30 - 08:30  Hermes

Affiliated Society
EOTTD: Working Together: Improvement of Management of Gestational Trophoblastic Disease through National and International Collaboration

Coordinators:
Leon Massuger (The Netherlands)
Nienke van Trommel (The Netherlands)

- A trophoblastic disease center in France. 15 years of experience. A model for new centres in Europe?
  Jérôme Massardier (France)
- Placental Site and Epithelioid Trophoblastic Tumour - a global perspective
  BW Hancock (United Kingdom)
- Twin mole pregnancy - focus on clinical outcome and genetics
  Isa Niemann (Denmark)

07:30 - 08:30  Thalie / Clio

Sunrise:
Colposcopy workshop

Coordinators:
Vesna Kesic (Serbia)
Jiri Slama (Czech Republic)

- Current role of colposcopy in diagnostics of lower genital tract pathology
  Jiri Slama (Czech Republic)
- Future directions in colposcopy
  Vesna Kesic (Serbia)

08:30 - 09:30  Athéna

Parallel:
New imaging technology

Coordinators:
Andrea Rockall (United Kingdom)
Nandita deSouza (United Kingdom)

- Imaging the primary site (cervix, endometrium, ovaries, peritoneum)
  Nandita deSouza (United Kingdom)
- Imaging lymph nodes and recurrent/relapsed disease
  Andrea Rockall (United Kingdom)
- New nuclear medicine approaches-beyond FDG
  Jean-Noël Talbot (France)
08:30 - 09:30  Hermès
National Society SFOG 4 - (Free communications in English)

Coordinators:
Yves Aubard (France)
Anne Floquet (France)

08:30 - 09:30  Thalie / Clio

Parallel:
Image guided radiotherapy

Coordinators:
Remi Nout (The Netherlands)
Richard Pötter (Austria)

- Advances in pelvic external beam image guided adaptive radiochemotherapy
  Jacob Lindegaard (Denmark)
- Image guided adaptive brachytherapy for cervical cancer combined with external beam radiochemotherapy
  Richard Pötter (Austria)
- Image guided adaptive brachytherapy for vaginal cancer, vaginal recurrences and endometrial cancer
  Remi Nout (The Netherlands)

08:30 - 12:30  Calliope

Fellows' Workshop:
Tips and tricks in pelvic laparoscopic surgery & ESGO Quiz

8:30-9:30

Coordinators:  Vladyslav Sukhin (Ukraine) and Polat Dursun (Turkey)

Description:  Quiz by multiple choice questions based on database presented to groups of 5 attendees using Participoll.com. The best group will be awarded.

9:30-10:30

Coordinators:  Denis Querleu (France) and Ignacio Zapardiel (Spain)

Description:  videos on Laparoscopic pelvic lymphadenectomy
  - Frederic Amant (Belgium)
  - Marek Pluta (Czech Republic)
  - Ignacio Zapardiel (Spain)
  - Jalid Sehouli (Germany)
  - René Pareja (Colombia)
  - Rene Laky (Austria)
11:00-12:30

Coordinators: Rene Laky (Austria) and Jacek Grabowski (Poland)

Description: videos on laparoscopic radical hysterectomy
- Javier De Santiago (Spain)
- Fabrice Lecuru (France)
- René Pareja (Colombia)
- TBA
- Dae-Yeon Kim (Korea)
- Alessandro Buda (Italy)

09:30 - 10:30  

Athéna

Parallel:
Management of treatment complications

Coordinators:
Elena Ulrikh (Russia)
Philippe Morice (France)

- QOL after radical surgery in cervical/endometrial cancer
  Elena Ulrikh (Russia)
- Radio-induced chronic enteritis in uterine cancer: how to prevent, how to manage?
  Jervoise Andreyev (United Kingdom)
- Place of interventional radiology in the management of immediate and late postoperative complications
  Frederic Deschamps (France)

09:30 - 10:30  

Hermes

National Society
BRITISH GYNAECOLOGICAL CANCER SOCIETY: Ovarian Cancer Research Update: From The Laboratory To The Clinic To The Operating Theatre

Coordinators:
Raj Naik (United Kingdom)
Charlie Gourley (United Kingdom)

- Genetic and molecular changes in ovarian cancer
  Charlie Gourley (United Kingdom)
- OPCML: Systems regulation of receptor kinase networks in ovarian cancer
  Hani Gabra (United Kingdom)
- Surgical Bioengineering and tumour heterogeneity
  Christina Fotopoulou (United Kingdom)
- Update on a phase 1b trial of pazopanib plus fosbretabin
  Gordon Rustin (United Kingdom)
- TOPCAT: A surgical trial of ultra-radical surgery in advanced ovarian cancer
  Raj Naik (United Kingdom)
Parallel: Rare gynaecological malignancies

Coordinators:
Isabelle Ray-Coquard (France)
Nicholas Reed (United Kingdom)

- Introduction and welcome
  Isabelle Ray-Coquard (France)
  Nicholas Reed (United Kingdom)
- Pathology of sex cord and stromal tumours
  Mojgan Devouassoux (France)
- Treatment of sex cord and stromal tumours
  Isabelle Ray-Coquard (France)
- Pathology of neuroendocrine tumours of genital tract
  Sigurd Lax (Austria)
- Treatment of NE cancers of genital tract
  Nicholas Reed (United Kingdom)
- Discussion and conclusions
  Isabelle Ray-Coquard (France)
  Nicholas Reed (United Kingdom)

Parallel: Primary Prevention in Gynaecological Oncology

Coordinators:
Catherine Hill (France)
Andrew Nordin (United Kingdom)

- General introduction
  Catherine Hill (France)
- Management of Ovarian Cancer risk
  Usha Menon (United Kingdom)
- Endometrial cancer risk reduction
  Isabelle Romieu (France)
- Prevention of vulvar cancer
  Andrew Nordin (United Kingdom)
